<br><p>-----Part 4-----</p>

<p class="text">Change my style</p>

<button id="changeStyleButton">Change Style</button>

</body>

</html>
```

Add JavaScript with JQuery to the code above following the instructions below

Change Background Color on Click:

Change the background color of a `<div>` element with the class `box` to blue when clicked.

Common Events:

Implement `click`, `hover`, `focus`, and `blur` events on different elements.

Show and Hide Elements:

Show and hide a `<div>` element with the id `content`.

Fading Effects:

Fade in a `<div>` element with the id `fadeBox` over 2 seconds.

Sliding Effects:

Slide down a `<div>` element with the id `slideBox`.

Change Image Source:

Change the `src` attribute of an `` element with the id `image`.

Change CSS:

Change the CSS of a `<p>` element with the class `text`.

Submission

Follow the submission manual
