Create a page welcome message :

1. Get the user name in the input field
2. When the button is pressed add an event that get the user name and creates a welcome message on the page
3. Add a check to ensure the length of the input is larger than 3 characters long

---

Count the number of list items and add a para tag to show the results.

When a user brings mouse over the bold text it should be highlighted. Note#: Feel free to create your own CSS class.
