Database Programming - CSD 4203

Practical Exercise #1 – 2024S

Student ID :

Student Name :

----

1. create a copy of the table employee (New table name is employee_copy)

2. Write anonymous block to display FirstName and Salary of employee number 110

(use %TYPE)

3.Write anonymous block to display average salary of all employees

(use %TYPE)

4.What is the difference between %ROWTYPE and %TYPE?

Guideline:

Create a unique code

Add Comments to the program

Add the last 3 digits of your student number to variables/ functions

Take clear screen shots of the program source code and the outputs

Run the program for test cases (if applicable)

Paste all the screen shots in logical sequence to a Word Document and convert the Word Document to PDF

Create a connection name with your firstname / or if you are using live oracle , your email must contain your firstname

Show your connection or login name in the screen shots

Upload the PDF (converted) to Moodle (Name PDF as Assign1_[studentno])
